

# HERSHEY'S KISSES Foil Snowflakes

## Directions

- 1 Unwrap your HERSHEY'S KISSES candies carefully to avoid tearing the foil. Smooth out the wrapper.
- 2 Fold in half diagonally to make a triangle.
- 3 Fold in half again, matching the corners on the long edge.
- 4 Fold in thirds, pulling the left-hand long edge corner towards the middle, then do the same with the right. You'll end up with something that resembles an arrow.
- 5 Trim the "tails" off the arrow so you have a tall triangle.
- 6 Get creative and cut small shapes out of your triangle to make a design. Remember, all snowflakes are unique!
- 7 When you're finished, carefully unfold your flake.
- 8 Attach some string and create a garland or hang them individually from the tree or ceiling.
